Reasons for Allowance

Claims 1-10 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Wong, taken alone or in combination of other references, does not teach or fairly suggest a method or a fail-safe system for differential current logic receiver circuits comprising, among other things, a current mode differential receiver and means for sensing the unequal currents and outputting a differential current corresponding to the received unequal currents under normal operation, wherein in any defined fail-safe conditions the differential current output of the means for sensing remains stable, as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
